

HSSEQ POLICY STATEMENT

Responsible Care is integral to our business, including safe and reliable production, transportation, supply chain management, product education and customer service. Our Global Integrated Management System (GIMS) incorporates the Responsible Care codes and international standards. All Methanex business units shall ensure they comply with or exceed the requirements of the GIMS.

Methanex Corporation is committed to the continual improvement of its Health & Safety, Security, Environment and Quality (HSSEQ) programs. We pledge to:

- Meet or surpass applicable regulatory requirements, customer commitments and other agreements we make.
- Develop solutions for long-term reliability and sustainability.
- Operate equipment, facilities and services in a manner that minimizes impact to the environment and protects the health and safety of all people.
- Identify hazards and reduce risks to protect health, safety, security and the environment and be proactive in responding to community concerns and customer needs.
- Set key performance indicators, evaluate our performance against them to verify our systems are effective and current.
- Regularly report on our performance publicly.

Health & Safety

Process Safety and Occupational Health & Safety shall not be compromised in favour of production or product movement. Methanex is committed to provide safe and healthy work conditions to prevent work-related injuries and illness. We consult and engage our workforce.

Security

All Methanex business units shall ensure they have management systems in place to identify and prevent security incidents and have regular reviews to ensure they are current and effective.

Environment

All Methanex owned and operated production facilities and terminals shall maintain an environmental management system that meets the requirements of ISO 14001. In all business units, programs shall be in place to prevent pollution, use resources efficiently, minimize waste and emissions and prevent degradation of the ecosystems.

Quality

All Methanex locations shall commit to continually improving efficiency and effectiveness to achieve satisfaction of internal and external customers. All Methanex owned and operated Manufacturing facilities and Marketing & Logistics offices shall maintain a quality management system that includes registration to ISO 9001.
